SOLUTION SNAPSHOT

<p>CHECK-IN TIME</p> <p>< 60 s full workflow</p>	<p>ID VERIFICATION</p> <p>Passport / NID / driving licence OCR</p>	<p>BADGE PRINTING</p> <p>Thermal label, < 8 s per badge</p>
<p>WATCHLIST SCREENING</p> <p>Real-time, configurable lists</p>	<p>HOST NOTIFICATION</p> <p>SMS / email / push (< 5 s)</p>	

Built for Real Operations

Secure visitor onboarding and check-in workflows for campuses, factories, and corporate HQs.

APPLICATIONS

Where This Product Fits

Corporate Headquarters

Delivers a professional, branded reception experience while ensuring every visitor is verified and logged before entering the building.

Manufacturing & Industrial Facilities

Issues site-specific safety induction materials digitally and captures contractor acknowledgement before granting access.

Government & Sensitive Facilities

Integrates watchlist screening and ID verification to prevent unauthorised individuals from entering classified or sensitive areas.

SPECIFICATION

Technical Details

Check-In Time	< 60 s full workflow
ID Verification	Passport / NID / driving licence OCR
Badge Printing	Thermal label, < 8 s per badge
Watchlist Screening	Real-time, configurable lists
Host Notification	SMS / email / push (< 5 s)
Kiosk Display	21" capacitive touchscreen
Camera	8 MP face capture + document scanner
Integrations	Active Directory / Outlook / Slack
Data Retention	Configurable, GDPR-compliant
Warranty	3 years hardware + annual SLA

"Our reception team now handles twice the visitor volume without additional headcount. Compliance audits that used to take days now take minutes — all records are searchable instantly."

Head of Facilities, Global Law Firm

1,200-person headquarters

RESOURCES

Media & Questions

Q. Can visitors pre-register before arriving?

A. Yes. Hosts send an invitation link that allows visitors to upload their ID, sign NDAs, and complete health questionnaires before arriving, reducing kiosk time to under 20 seconds.

Q. Is the system GDPR and data-privacy compliant?

A. Yes. Visitor data retention periods are fully configurable, automatic deletion rules are enforced, and all personally identifiable information is encrypted at rest and in transit.

Q. What happens if a visitor is flagged on a watchlist?

A. The system silently alerts the security team via the management dashboard and escalation contacts without alerting the visitor, allowing trained staff to manage the situation.
